

# Unseen unclean.

I damn the lie  
You kept tryin' to avoid  
You tried hard to be strong  
And I know you did good

I know that you know  
The promise you chose now  
Won't be kept  
The sun that you touch  
IS NOT your own

And I know that you know  
It's lend'd to you.....  
Traded for the price of your sanity  
You can't dance on the edge of a knife  
And expect not to fall, not to bleed, not to get scarred  
I get scared for I feel helpless  
Unable to get closer than you'd let me

How can I tell you  
"I miss you"  
When you're missing yourself !?!

I feel tiny & useless & misunderstood  
Just like you in your darkest mood  
If you fear MissUnderstanding  
I don't comprehend, why you opened the door to your life for her  
I know you knew that the spark she carries  
Puts out the shining light you keep inside  
And leaves you burnt out

H stands for Hollow  
H stands for Hell  
A selfish goddess  
Because I fear you mistook the sweet smile of sin  
For ego-strenght, not the deadly grin of a heroine  
The fake hero, a deceptive hope  
And I thought you would know better than this  
I wish I can show you another way discontent to dismiss

How can I tell you  
"I miss you"  
When you're missing yourself !?!

You're taking a chance-flight  
On a burning plane  
Tryin' to get to heaven  
With a needle in your vein  
All the dreams that we had  
Are neglectingly isolated  
Within memories,  
Not 1 per cent as far and insane

The low of the high  
Is deep like a grave  
I'm in fear you won't tell I'm a friend  
With that junk-pistol in your hand  
A shot in your arm  
Is like a shot to your head  
And you walk off dead to the world  
Skinny, pale, purple-bruised  
The image of ego-god on your mind  
And a devil's tool in your vein

How can I tell you  
"I miss you"  
When you're missing yourself !?!

And I don't want to lose you  
And I know you're afraid  
Afraid of what might be  
Afraid of the need to lie  
To lie to me, to your Mom  
And brainfuck yourself  
For you wanted to flee from lies  
When you chose to fly towards your future's demise

I damn the lie  
You tried to avoid  
And I thought you'd know better than this  
I wish I can show you another way discontent to dismiss  
As if there wasn't enough sickness around us these days

I don't want to lose you  
And I know you're afraid

But how can I tell you  
"I miss you"  
When you're on the edge of missing yourself.....
